

RATNA KUMARI BALLA

☎ 8897111335 | ✉ kumariratna370@gmail.com | [🌐 LinkedIn](#) | [🌐 GitHub](#) | [🌐 CodeChef](#)

Education

Sasi Institute of Technology and Engineering

Expected 2027

Bachelor of Technology, Computer Science & Engineering (AI & ML) | CGPA – 8.9 / 10

SVKP & PV Junior College | 2021 – 2023

Class XII – 97.8%

Experience

Huebits Tech – GenAI Intern

June 2026 – July 2026

- Developed an AI Investigation Assistant using Python, FastAPI, React, MongoDB, and Groq API.
- Implemented Retrieval-Augmented Generation (RAG) using vector embeddings and FAISS for semantic search.
- Designed REST APIs and integrated LLM capabilities for intelligent legal assistance and recommendations.

Infosys Springboard Virtual Internship 6.0 [🌐](#)

Feb 2026 – Apr 2026

- Developed responsive web applications(Tripwave) using Angular, TypeScript, HTML, CSS, and Firebase.
- Implemented Firebase Authentication and database integration.
- Built reusable UI components and optimized application performance using GitHub workflows.

Projects

AI Investigation Assistant

Tech Stack: Python, FastAPI, React, MongoDB, FAISS, RAG

- Built an AI-powered investigation platform for legal assistance and document retrieval.
- Implemented semantic search using vector embeddings and FAISS.
- Integrated LLM-based recommendations and intelligent response generation.

TripWave – Tourism Web Portal

Tech Stack: Angular, TypeScript, Firebase

- Developed a tourism web application with authentication and login functionality.
- Implemented sorting, filtering, and theme-switching features.
- Built responsive and interactive UI components using Angular.

Technical Skills

Programming: Java, Python, JavaScript, SQL

Frameworks & Technologies: Spring Boot, FastAPI, Angular, React, HTML, CSS, TypeScript

Databases: MySQL, MongoDB

AI & Machine Learning: Generative AI, RAG, LangChain, FAISS, Vector Embeddings, Machine Learning

Core Concepts: Data Structures & Algorithms, OOP, REST APIs, Problem Solving

Tools: Git, GitHub, Google Colab, VS Code, Jupyter Notebook

Certifications & Achievements

- Solved **1000+ coding problems** on CodeChef and coding platforms.
- Infosys Springboard Certification – Web Development (HTML, CSS, JavaScript, React, Angular, Python).
- GeeksforGeeks Certification – JavaScript & Data Structures.
- HackerRank Certifications in Programming Fundamentals.
- Built and deployed multiple Full-Stack and AI-powered applications
